

Air Conditioner Disconnect Box Non-fusible

Models: LBMDC-N

General Description

- UL Certified
- The enclosure is constructed of galvanized steel finished with light gray powder coating for durable use.
- The disconnect box is to disconnect the power source of air conditioner or other devices.
- The disconnect box provides a visible disconnecting means to prevent personal from getting shock when performing maintenance or installation.
- With a locking plate in the front, the disconnect box can be locked to prevent unauthorized operation.
- Protective shield can not be removed unless the Pull-out handle is removed, disconnecting the power.
- Pull-out handle can be stored in the compartment in the OFF position to prevent being misplaced.
- Optional Fusible and Non-fusible design available.
