

Window Air Conditioner Supporting Bracket

Models: LBWB-A

General Description

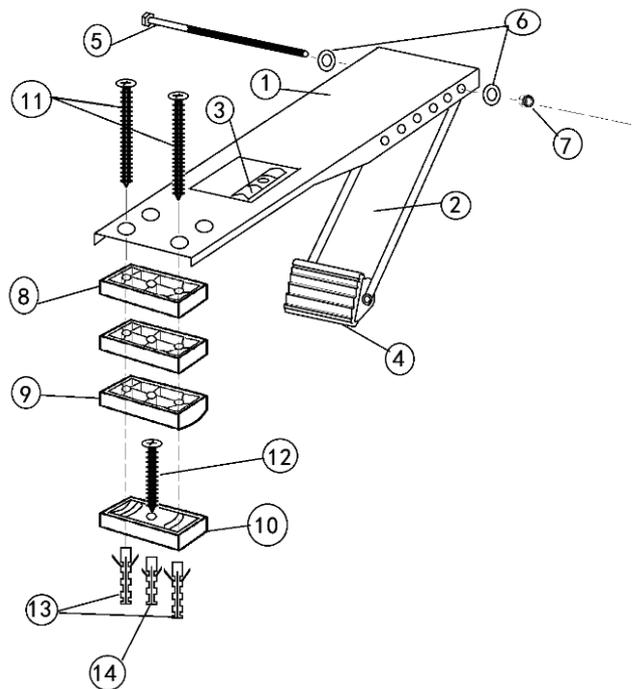

- Supporting bracket for window air conditioner.
- Easy installation, no outdoor work needed.
- Built-in level for easy mounting angle adjustment.
- Fits 4"~15" thick walls with minimum 2" thick sill (to place the mounting block).
- Transfer the stress and weight from the window sill to the bracket.
- Minimize the damage to the outside wall.
